Line up before Weston's road sprint

Harbour Capital Car Club Clubnight First Wednesday of the month: 1841 Disraeli Street Johnsonville

Committee Meeting 3rd Wednesday of the month, 1841 Disraeli Street Johnsonville, 7:30 pm.

Note: — anyone is welcome to attend committee meetings.

Wheelspin is the official magazine of the Harbour Capital Car Club, PO Box 4102, Wellington. Opinions expressed are not necessarily those of the Club or Committee.

To other Car Club Editors: While we do not object to other magazines using articles or material from our Wheelspin, we do appreciate recognition of the source of said material. Originals are usually available on request.

DEADLINE

The Deadline for Wheelspin articles is the 20th of the month approx.

CLUB NIGHT

1841 Pub (Upstairs) 1 Disraeli St, Johnsonville (next to the BP)

Wednesday 2rd March 2016 @7:30

For me, 2016 started out with a resounding lack of events! I generally don't enter Port Road unless I've got a new passenger to take out for hoonies, as the Corolla really is much the same speed every time I enter it there (that speed being just a bit too slow to be entertaining for me). Also this year, the Corolla was still on gravel height suspension. I wasn't keen to experience quite that much bodyroll, so I stayed away this year.

Just before the Triumph Sports Car Club Wallaceville Hillclimb, I purchased a Vitz RS, which looked like it could be fairly entertaining to have a go in, so I sent away an entry form, and chucked new brake pads in the Vitz. The last thing you want at an event with limited run off (well, limited in the sense that there aren't many places you can run off the road without saying a big hello to Mr Tree, or Mr Bank) is to discover that your brake pads are made of cheese.

The Vitz is actually amusingly boy-racered. It is on stupidly low suspension (I have to get the front up on 4x2 before I can get the trolley jack under it), it has a collection of underbody braces, braided brake lines, a light bottom pulley, TOMS oil cap, and one of those sort of piggyback computers to trick the ECU into giving it more fuel.

The rest of my race prep on the car other than the brake pads was to bolt on the race wheels and tyres off the Corolla onto it. Turns out that a Vitz looks like a rollerskate when you put it on 205/50 x 15 rubber, plus you end up wearing a big section out of one of the guard liners ... oh well, small price to pay I guess.

There was a good range of cars there, from a couple of sports racing cars (Mallock U2, Radical), a collection of Triumphs, some of the usual tarmac suspects like Mirage, Integra, Nissan Z, E30 BMW, and even a lone Alfa-Romeo rusting quietly to itself.

It was a nice sunny day, with a bit of a breeze to stop it from doing that strange thing that Upper Hutt can do, where the tarmac magically becomes the temperature of the sun. Although I have to admit, I was blatantly cheating, and running the air conditioning (and stereo) in the Vitz to keep nice and comfortable :)

The Vitz is fairly interesting to try to drive quickly, at the combination of big tyres, low

springs, and what I can only assume are standard shocks, means that you can seriously unload all the weight off the back tyres if you stamp on the brakes. I decided that having a lack of back wheels on the ground probably wasn't particularly clever, so after a good wiggle under brakes at full noise in third, I eased the brakes on to stop the nose dive. It didn't look like much from the in car camera, but with the short wheelbase of the Vitz, having the back start to dart around made for pretty good heartrate spike.

It was a generally no-drama day, so far as I'm aware nobody bumped into any scenery, and the only breakage I know of during the day was Corey who blew second gear into shrapnel on his practice run just off the start line.

We finished really quite early, even with bonus runs for those who were keen. Tim Sillay took out the event in the Mallock, closely followed by Tim Steeneken in the MR2 V6 beast.

To my surprise I was nowhere near last place, being only two seconds slower (60 compared to 58) than where I was previously in both the Corolla and also the Integra. With the funny classes they run at that event (basically everyone is in a class with three cars) I was running against Mike and Cathy in the Mirage, and managed to get the wee Vitz home first in class. Which was good, but rather surprising to me. I actually looked around at the cars entered, and at my silly little boy-racer shopping basket, and thought that I'd probably be about dead last!

This is a really good little event, and so close for most of us. It surprises me that even with their no 4wd policy, that the turnout is as low as it is. It is a challenging little bit of road, and even in a car as slow as a Vitz it is still heaps of fun.

Talking of good events, with a small entry, I think Weston's Farm takes the prize this year, with a tiny field of only ten entries!

There seemed to be a lot of bad luck involved, with a lot of the usuals being tied up with non-motorsport events, or mechanical gremlins.

Of the ten entries, six were in the 1301-1600cc class, so it looked like we were going to have a pretty good battle in class, even if the overall battle was going to be a bit light.

Strangely, there was not a single solitary four wheel drive entered, which I don't think I've seen before on gravel. Not that there are any particularly weird and wonderful corner cutting options available, and that is the usual problem with running with four wheel drives, big corner cuts, and rubbish being dragged onto the line. If you tried that at Weston's, there would be a four wheel drive embedded into a bank or fence (or building).

We went out on the familiarisation run, and discovered lots of loose rock and stuff on the road, so with only a small field, it promised to be a slippery kind of day.

I didn't have any particularly major dramas during my day, as for practice and the first two timed runs, I was concentrating on keeping it clean and tidy. The only particularly hairy moments were at the barrel turn, where I was driving completely blind, back through my own dust. I was a heap slower at that point this year than I was last year, as last year there was some wind to blow the dust off the road. This year I was driving while keeping one eye on the fence line to try to tell me if I was more or less on the road. Which isn't ideal, as there's a freaking great tree on the inside of the next corner you're arriving to.

Now that I've foreshadowed it a bit, by mentioning that it was really slippery, there is a great

big tree, and that you really don't want to get off line ... well Callum McKenzie went out quite enthusiastically on his practice run, went a bit offline because it was slippery, and went down a fence line before coming to a halt against that great big tree.

Quite a way to return after 6 + months away overseas.

The McKenzie Corolla will live to fight another day, but will need a new guard on one side, some replaced lights, a bit of bumper work, and some new suspension arms.

Callum himself will return also, but after a bit of healing time, as he has ended up with a broken finger and wrist. We don't see many injury accidents thankfully, so it was a bit of a wake up call for anyone getting complacent about safety. We are always taking risks with what we're doing, as there is a fair chance that Mr and Mrs Physics might need to have a word with you, if you bump into an immobile bit of scenery.

Dayle Brock in the Barina Gti had the accident that was probably inevitable given the complete commitment that he drives with, as he rolled it during his first timed run. It is fairly minor as far as rolls go, and since he was the only car in class, after he rolled it back onto its wheels, he completed the course, and got an official time. Which meant that despite rolling, he got maximum in-class points. A shame for him, as it means repairs needed, and also means probably one of his best chances to take out an overall event victory has gone.

At the end of the second run, I was second in class behind Gary Leech in the Ford Escort RS1600, with myself on a 2:07.50 and Gary ahead of me with 2:06.84.

I decided that I thought I could probably have a crack at pulling a second out of that time, and went out a bit harder on my last run. It was a very messy run, I ended up completely sideways once, and I missed second gear three times during the run, just through having gotten a bit of a case of red mist. I thought I'd completely cooked the run, and gone slower for sure (as a fairly hearty "word that rhymes with duck" escaped my lips after I finished the run).

To my utter amazement, I had actually taken almost 2.5 out of my time, and gotten down to a 2:05.07. Gary had in his last run gone nearly a second and a half quicker too, so I scraped in by a winning margin of 4/100ths of a second ahead of Gary on a 2:05.11.

I was pleasantly surprised by that, and ended up third overall too. Although with only 7 cars actually finishing, third overall isn't nearly as good as it sounds!

Graham Heath took out second overall, behind Shane McKay in the rear drive WRX.

The last and biggest event for me prior to magazine article writing time was the Manawatu grass autocross, which attracted a field (in a field) of 45 entries, ranging from bucket of sh*t cars, through to a race WRX, and everything in between including a couple of BMW's, a Soarer, and a Nissan Ute.

Unfortunately the same paddock had seen an enduro motorcross race in it, so there were a couple of serious grooves in the paddock to be navigated.

There were quite a few thumps and bumps during the tiki tour, and even more during the first timed run! It has been a while since I've hit the sump guard during a grass autocross ...

We had a pretty decent HCCC contingent there, AI, Webster, myself, Neil Roots (driving my car), Stephen Heise, Stephen Samuelu, Hamish Mclurgh, Dan Binet, Ian Steward (normally in the Escudo, but in a WRX for a change). Hopefully I haven't missed anyone, as the results don't include club affiliations!

As a club, we put on pretty dominant performance, taking out first through third (AI, Webster, Neil), and myself in sixth. So that's four from the top six.

Hopefully the paddock recovers a bit, as it was definitely a bit rugged compared to last time I was out there. I had a couple of hits that were hard enough that it meant that on landing the windscreen wipers switched on. But the car survived intact, and took out first in class under Neil's control :)

Coming events, we've got in March (the 16th) a Slotcar racing evening, courtesy of Allan Tucker.

April Clubnight (so, not March, but April) we should be running prizegiving.

We're still awaiting the paddock to be cleared of feed crop in Tauherenikau before we schedule any events there. But watch this space.

That is it from me for now, see you some place with cars and corners (or burgers and lies!) Leon

Good chance these folks are no longer with us.....

The Drover at the Pearly Gates

A drover from a huge cattle station in the outback appeared before St. Peter at the Pearly Gates.

"Have you ever done anything of particular merit?" St. Peter asked.

"Well, I can think of one thing," the drover offered.

"Once, on a trip to the back blocks of Broken Hill out in New South Wales, I came across a gang of bikers who were threatening a young sheila. I told them to leave her alone, but they wouldn't listen. So I approached the largest and most heavily tattooed bikie and smacked him in his face, kicked his bike over, ripped out his nose ring, and threw it on the ground.

I yelled, "Now, back off!! Or I'll kick the sh#t out of the lot of ya!"

St. Peter was impressed, "When did this happen?"

"A couple of minutes ago."

2016 Easton Farm (Manawatu) Grass Autocross

A blonde man is in jail.

The guard looks in his cell and sees him hanging by his feet.

"Just WHAT are you doing?" he asks.

"Hanging myself," the blonde man replies.

"The rope should be around your neck." says the guard. "I tried that," he replies, "but then I couldn't breathe..."

Wellington Motorsport Association Calendar 2016

March	5		Mini Pikes Peak Clubsport Champs	Wanganui	Rangitatau East Road (5.5km) South Island (Invercargill)	
	6		Clubsport Champs Mini Pikes Peak	Wanganui	South Island (Invercargill) Rangitatau East Road (5.5km)	
			Sealed Sprint	Levin	Kaihinau Road	DM/So
	13	AW	Gravel Sprint	Wairarapa	Puketiro Road	GS

DCC Gravel Sprint Series

Round 2 was at Pahaheke Road, Kumeroa (12km east of Woodville). With an early start Saturday I once again decided to stay Friday night with friends at Woodville.

I also planned to change my tyres Friday so I would not have to change them in the paddock. But when I came to do the job my jack lever broke. So I did the rears with the scissor jack and left the fronts to Saturday.

When I arrived at the pit paddock early almost all the 24 entries were there. So after documentation, tyre changing, auditing and briefing we were ready.

The format for the day was we went on our observation run (convoy) to look at the 3km course. This was difficult as visibility was poor with lots of metal on the road and dust. Then we had three runs there and three back with your best time each way added to get your time for results.

As we waited for the first group to return the first crash of the day happened. Gareth in the VR4 (winner of round 1) hit a bank losing his right front wheel. We were lucky to be able to park in the shade while they recovered the car. Finally we started the mostly downhill run which was technical with multiple combinations of fast corners with a couple of tight ones either side of the straight at the end. I was a little tentative on the loose metal but enjoyed the return uphill run better.

The weather was a scorcher with the temperature rising into the high twenties. The times however were going down with the road surface being sweep off so it was the best conditions of the day to improve your time.

Everyone was trying hard. But young Cameron in the Mirage over did it riding up the bank on the left before rolling over the road and into the paddock on the right taking the fence with him. It was found that he had hit his head so was sent to hospital for a check-up. The car stayed in the paddock to the end of the day. It was battered and bruised like Cameron. Unfortunately for us this time we were at the end of the road with no shade or water while we waited for the track to be cleared. Not nice.

It did not seem to affect me as I had a really good run back up the hill. This proved to be my best as on the last in/out runs I could not get the flow through the corners to improve my times as hoped.

It was no surprise that Geoff Argle EVO 8 (ex. national competitor) was the fastest 4WD. Ahead of Adam Bligh EVO 6. Daniel Feck FTO taking out fastest 2WD ahead of Robin Feck in the mighty Imp.

Another good day on the gravel. Hot work and I am glad most events are run in the cooler months of the year.

Check your tow bars!

A motorist had a nasty surprise recently when the tow bar on their vehicle suddenly failed, allowing the boat that they were towing to part company with the vehicle. Whilst it was fortunate that there was little damage and no injury as the vehicle was stationary in a parking lot at the time, the consequences could have been much worse if it had happened on the open road.

The tow bar in question was designed and manufactured to the highest standard in New Zealand, but the corrosion was caused by regular immersion in salt water when launching and recovering the boat, leading to its premature failure.

HCCC invites you to come and try your luck at Slot Car Racing.

It's just like real racing, only no big end bearing failures, no gearbox issues, no blown turbos, no tyre troubles and a lot, lot smaller - 24 times smaller to be exact!

More information on the website here: http://www.zippitynz.com/WSCC.htm

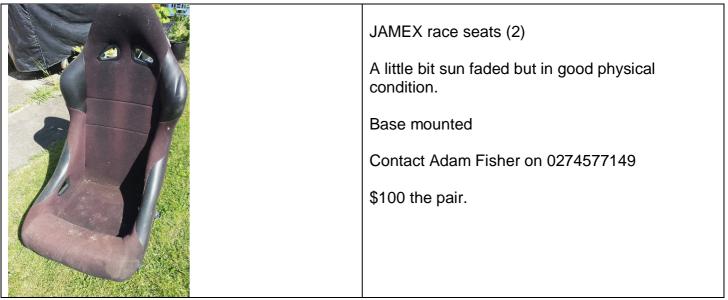

"Slot cars don't use radios for remote control. Instead, drivers tap into a track-based, 12-volt electrical system via a hand-held controller and conductive pads located at the front of each car. With six "slots" or lanes which allows for up to six cars to race against one another. During a race, after a set time, the cars and drivers change lanes until they have raced on all six lanes. With cars travelling at 17 to 30 miles per hour, depending upon the class of race car, the action is so fast and furious that it takes a computer to follow the competition and register race positions and standings."

Prices are \$8 per person and the action starts at 7pm, Wednesday 16th March.

The 53.5 metre (175.5 foot) 6-lane track is located in Lydney Place (upstairs adjacent to The Dental Centre), Porirua.
